New for 2006

THE UHPSI WEB APPLICATION

The new version of the UHP Safety Inspection program is currently in the final stages of development. In the coming months you will be receiving an information packet that will contain details of how to sign up on the new system, the new system benefits, and ways to take advantage of the new system capabilities.

What is the UHPSI Web Application?

It is a new web-based application that will become the standard for performing all Safety Inspections in the state of Utah. UHP has been working with Utah Interactive to create this new application. Utah Interactive is a Utah company that is responsible for building and maintaining many of the applications on the Utah.Gov web site including vehicle registration applications, drivers license applications, and similar programs that are related to and complementary to the UHP application.

The new UHPSI Web Application will:

- Be very similar to the current UHPSI application in terms of how you enter the data. If you use the current UHPSI application, you will experience an easy transition to the new program
- Use a direct connection to the web, and perform all calculations and store all data on redundant and fully backed-up servers.
- Bill you for only the certificates you issue each month – no more pre-purchase of inventory!
- Provide very reliable uptime
- Be covered by Utah Interactive technical support through email, phone calls, and instant message chatting 24 hours a day, 7 days a week.

What is required to use the new UHPSI Web Application

Basically two things:

1. You need to have a computer workstation connected to the Internet, with a recent

version of a web browser installed and running (such as Internet Explorer, Firefox, Safari, or similar)

2. You need to have a current signed agreement with Utah Interactive (If you are one of the stations currently participating in the On the SPOT Renewal program through the DMV, you already have this)

What are the next steps?

We are currently testing the application to ensure that the rollout will be smooth and easy. Watch for more information coming from Utah Interactive, who will send you a sign-up packet with full details in the coming months. This packet will include:

- An overview of the entire system, including technical requirements
- Utah.Gov Subscription Agreement with Utah Interactive
 - o This agreement establishes an account with Utah Interactive. UI will be responsible for billing you for the inspection fees. One advantage of the new program is that you will no longer be required to pre-purchase certificates. You will be billed monthly for only those certificates that you issue.
- A list of contact information for both technical support and program support.

UtahInteractive

Once you receive the packet, please follow the instructions carefully and completely. Your timely response will enable you to take advantage of this new program quickly, and enjoy the benefits of the UHPSI Web Application.

About Utah.gov

Utah.gov is the state of Utah's official Web portal (www.Utah.gov <<http://www.utah.gov/>>) and was ranked first in the nation in Brown University's 2005 survey of state and federal Web sites and won first place in the Center for Digital Government's 2003 Best of the Web competition. The portal is a collaborative effort between the state of Utah and Utah Interactive, LLC. It was built and is marketed, operated, and maintained by Utah Interactive, a Salt Lake City-based wholly owned subsidiary of government firm NIC (Nasdaq: EGOV).

FYI Station Management

R714-158—4 Station License: Upon approval, the license will be issued to the applicant / station and shall be displayed in a prominent location at the address shown on the license.

This also includes display of the certification card of each inspector employed at the station location.

INSPECTOR EXPIRATION DATES

The Utah Highway Patrol's computer program now updates an inspector to expired status automatically if he/she has not recertified prior to his/her expiration date. The system will lock the inspector out of the online program and prevent the inspector from performing inspections until he/she recertifies. Inspectors are able to recertify up to **two months / 60 days** prior to the expiration date on the certification card.

WINDOW TINT LIGHT TRANSMITTANCE CHANGE

EFFECTIVE IMMEDIATELY, the Department of Public Safety / Utah Highway Patrol Vehicle Safety Section is revising requirements for the variance of light transmittance testing. This change deals with the windows to the immediate left and right of the driver. **THE NEW VARIANCE WILL BE 3% FOR ALL LIGHT METER TESTING.**

DO NOT use the variance indicated on your light meter equipment.

AGENCY ACTIONS

Station/Insp Name Agency Action Disposition

#1590 City Muffler	60 day suspension for passing a vehicle with out mudflaps, fender flares, muffler and illegal tint.	Station owes reinstatement fee.

If Life could be like a computer

If you messed up your life, you could press "Ctrl, Alt, Delete" and start all over!

To get your daily exercise, just click on "run"! If you needed a break from life, click on suspend.

Hit "any key" to continue life when ready.

To get even with the neighbors, turn up the sound blaster.

To add/remove someone in your life, click settings and control panel.

To improve your appearance, just adjust the display settings.

If life gets too noisy, turn off the speakers.

When you loose your car keys, click on find.

"Help" with the chores is just a click away.

Auto insurance wouldn't be necessary. You would use your diskette to recover from a crash.

And, we could click on "SEND NOW" and a Pizza would be on it's way to you.
